- **Languages**: Python
- **Tools & Technologies**: Playwright, Vector Databases
- **Core Concepts**: Algorithms, Problem Solving
- **Soft Skills**: Event Management, Team Communication & Coordination, Hackathons

WORK EXPERIENCE

Project Manager | Azerbaijan Startup Community

Baku, Azerbaijan | Jul 2026 - Current

- Organize Demo Day events, coordinating planning, schedules, and event delivery.
- Coordinate team members, assign tasks, and follow up on progress and deadlines.
- Oversee participant registration, registration lists, and attendee communication.

AWS Student Builder Group Leader | Odlar Yurdu University

Baku | May 2026 – Current

- Lead the AWS Student Builder Group at Odlar Yurdu University, building a community of students passionate about cloud computing.
- Organize workshops, tech talks, and hands-on events where young people learn AWS services and cloud fundamentals.
- Help members gain practical, career-ready cloud skills.

Software Engineer | Neurotime

Baku | Feb 2026 – May 2026 | Website: neurotime.ai

- Developed an LLM-based chatbot system with semantic search capabilities, integrating embedding models for data vectorization and connecting vector databases to enable accurate, context-aware responses.
- Designed and implemented automated test suites using Playwright and Python, covering end-to-end UI and API flow validation to ensure system reliability and quality.

Event Organizer & Coordinator | OYU Startup and Incubation Center

Baku | Nov 2025 – Current

- Contribute as Coordinator and Project Manager at the OYU Incubation Center.
- Organize and coordinate tech events and innovation programs for students within the local startup ecosystem.

EDUCATION

Bachelor of Information Technology

Odlar Yurdu University — Sep 2025 – Current

Software and applications development and analysis | EQF Level 6

Full Stack Web Development (Certification)

Holberton School — Nov 2025 – Current

Entrepreneurship, Satellite Technology and Artificial Intelligence

Holon Institute of Technology — Jul 2026 – Sep 2026

PROJECTS

Openly | Sep 2026 – Current | GitHub | Demo Video

- Helps young people from Azerbaijan find and apply for opportunities abroad (Erasmus+, European Solidarity Corps, UN Volunteers), bringing them together in one place with deadline reminders and tracking of saved and applied programs.
- **Openly Student** brings together scholarships, universities, and a step-by-step roadmap, showing options that match the user's level and budget and comparing universities side by side.
- An **AI assistant** helps shape motivation letters, reviews CVs and essays, and suggests a personalized study-abroad plan. Free to browse, no account needed.

KiberEduAz | Aug 2026 – Oct 2026 | GitHub

- Interactive cybersecurity education platform that helps school students learn cybersecurity in a simple, engaging, and practical way, with separate access for teachers and students.
- Teachers create virtual classes, add students, assign tasks and practical challenges, and track progress; students complete hands-on activities to build practical skills.

HONOURS & AWARDS

- **Replit AI & Dev Hackathon (3rd)** | Replit Baku | Oct 2026
